AMPGARD SC 9000 2500HP, 4160V AFD

*This version of Products & Services emphasizes our industrial and commercial electrical distribution products and services.*

**The smallest medium voltage drive in the industry**

Eaton's AMPGARD SC 9000 medium voltage adjustable frequency drive combines innovative technology with the reliable design and construction you've come to expect with AMPGARD products. Designed for use with induction or synchronous motors at 2400 to 4160 volts and up to 5000 horsepower, the AMPGARD SC 9000 delivers maximum benefits while being the smallest medium voltage drive in the industry.

The SC 9000 will be on display at [Offshore Technology Conference \(OTC\) 2010, May 3-6 in Houston, Texas.](#)

**You're invited to our Open Houses**

Eaton Corporation is holding two open houses at its regional manufacturing facilities in Colorado and Arizona during May. On May 12, 2010 the Phoenix satellite and sales office in Tempe will open its doors to customers and guests from the desert Southwest to tour the facility, attend educational seminars and meet with product line representatives to discuss the latest technology and innovative products. On May 18, 2010 the Denver satellite and service center in Aurora will also be open to customers and guests from the Colorado region. To learn more about these open houses, click on the city below:
